*APR = Annual Percentage Rate. 2.95% interest rate is a limited time offer for single-family, owner occupied construction and subject to change without notice. APR of 4.24% is calculated on a \$350,000 loan with a maximum 12-month loan term. Payment example: 11 monthly interest only payments range from \$0-\$877 with principal and interest of \$350,877 due at construction loan maturity. Payments do not include taxes or insurance and actual payments may be greater. Loan is subject to normal bank underwriting, review, and approval.
